*[It is pretty well settled that neigher prohibition nor woman's suffrage can by any possibility become part of the constitution to be submitted to vote in October] (July 24, 1889)* , VANCOUVER INDEP. (1889), [https://digitalcommons.law.uw.edu/waconst\\_news/108](https://digitalcommons.law.uw.edu/waconst_news/108)

This Vancouver Independent is brought to you for free and open access by the Washington State Constitution History at UW Law Digital Commons. It has been accepted for inclusion in Newspapers by an authorized administrator of UW Law Digital Commons. For more information, please contact [cnyberg@uw.edu](mailto:cnyberg@uw.edu).

Every city in the Northwest is annoyed by tramps and desperate characters, and the authorities should do their utmost to rid their cities of them before it is found necessary to form vigilance committees in order to protect life and property.

Professor George Davidson, of the United States coast and geodetic survey, San Francisco, inspected the whistling buoy which the steamer picked up in Shelikoff straits, Alaska. He says it is outside whistling buoy No. 1, from off the mouth of the Columbia river, and that it had drifted 1000 miles before being picked up.

Sandy Olds, a gambler on trial in Portland for deliberately killing Emil Weber, another gambler, has been convicted of murder in the first degree. There is some hope visible of a revival of justice in the Oregon courts. There has been plenty of killing in that state for a long time, but there has been little or no punishment inflicted upon murderers.

Another fool in the Oregon penitentiary has chopped off his left hand to avoid being compelled to work. He will meet the same fate as the other man did. Soon as his arm gets well from the amputation he will be put at work piling brick, and will not get rid of work. There are some very lazy men in the world, and some of the worst get into limbo in Oregon.

There are at the present time thirty-two steam pile-drivers working on land and water along the water front of the city of Seattle. Several more have been ordered, and soon the music of forty brazen hammers will reverberate over the waters of the harbor. Those who own and run pile-drivers are making from \$25 to 55 per day with them. The consequence is that pile-driver owners are rapidly becoming wealthy.

The Oregon range is badly eaten out and the country is overstocked. This state of things is driving stock raisers into new quarters and many of them are coming into Eastern Washington Territory. The Big Bend country will soon be in the same condition as eastern Oregon. Indeed, what is known as the Crab Creek country is nearly destitute of its grass. It is overstocked to such an extent that the owners will have to diminish their herds or seek pastures new.

Mr Charles E. Leland, for many years manager of the Clarendon Hotel at Saratoga Springs, and the Delevan House at Albany, N. Y., has been secured to take charge of the grand new hotel in Portland. The "Portland," when completed and furnished will represent an expenditure of about \$600,000, and it is the intention to have everything connected with the hotel first class and of the most improved style. Mr. Leland will personally superintend the arrangement and fittings of the various departments, and as he is not limited as to expense, it is expected he will make "The Portland" what the proprietors desire to see it, the best hotel on the coast.

The discussions at the Constitutional Convention of last week pretty well settled the minority representation humbug. The democracy worked hard to have the thing engrafted upon the constitution, in selection of judges, but the convention sat down on it decisively. None but those hopelessly in the minority ever advocate it. It is a thing worse one sided than a three-fourths majority. In fact it always makes a nomination a dead sure election for both parties and virtually destroys competition in contests. When the democracy of Texas and South Carolina adopt minority representation will be soon time enough for Washington to do it. The republicans have won by hard work, and they propose to keep what they have.

More floods in the East. A dispatch from Lancaster, Ohio, says one of the most disastrous storms ever known in the Hocking valley culminated Friday in the breaking of Sharp's dam at Sugar Grove, on the Hocking canal. The dam held in store a large body of water that supplied the lower levels of the canal. Heavy rains had filled the reservoir to its banks, when suddenly the dam gave away, and the water went out through the valley, taking with it every movable object. For twenty miles the soil is plowed up. Trees, fences, crops and hundreds of live stock were swept away. No lives were lost, because the houses are situated on a bluff that overlooks the valley. But the canal for miles is a wreck, and thousands of feet of railroad track are washed away. A cloud burst happened on a Virginia river last week. Many people were drowned, and all crops in the valley swept away. Damage to the crops was enormous, and the farmers will be dependent upon charity until the next season.

Major Handbury's report on the governments works at the Cascades and the mouth of the Columbia are made public at Washington. Encouraging news comes from the mouth of the Columbia. The building of the jetty, which is still going forward, has already deepened the water on the Columbia river bar at the mouth, and is straightening the channel. There is no doubt of the success of this work. At the Cascades some progress has been made on the canal, and it is hoped it will be ready for use within thirty or forty years.

Rumors of impending war between Russia and Turkey are coming from Europe. It is reported that Turkey has joined the triple alliance, for defensive purposes. The Russian government has already allocated a large tract of land to the Mussulman population of Kasardah. Such gifts are unusual, and are usually the prelude to a conflict with Turkey. The governors of Odessa and Kischentaff, in recent addresses to the troops are said to have hinted that Russia was preparing to advance southward.

It is pretty well settled that neither prohibition nor woman's suffrage can by any possibility become a part of the constitution to be submitted to vote in October. Since this has developed, the suffragists and prohibitionists, who are pretty much one and the same crowd, object to having them submitted to vote as separate articles. The people want them submitted however, and will have them so submitted. These questions should be settled at once, so that future legislatures can have some peace. If these questions not definitely settled now, they will come up every year as a disturbing element in all the political parties. They will be in every caucus, every convention and every legislature. Submit them to the popular vote in October along with the constitution and they will be settled for this generation at least.

For the first half of the year 1889 the gold exports were very large, reaching the enormous sum of \$48,300,000. Shipments of silver for the same period were \$18,000,000, making the total exportation of specie for the six months nearly \$66,300,000. Of this sum nearly \$33,000,000 was shipped during the months of May and June.

The Albany Herald is responsible for the following: A few days ago Pearce Cochran, of Tangent, after using a cultivating plow placed it upon the top of a woodpile near the house. During the afternoon the rays of the sun shining upon the bright mould-board of the plow generated sufficient heat to set the wood on fire. It was observed in time to extinguish it before any damage was done.

Idaho as a territory has had much annoyance with Mormonism. Idaho as a state, if she gets to be one does not propose to temporize with this religious-political vice. A section of the constitution now being framed at Boise City, will prohibit bigamy and polygamy and require the legislature to pass laws for the punishment of such crimes. There is no mistaking this language. It forbids a sharp conflict with Mormonism for a few years in the new state, and their complete extermination as polygamists in due time.

London reports indicate that the wheat crop in Australia, Hungary, Russia and India will be an almost total failure. Not only will these countries be unable to ship wheat to Western Europe, but it is questionable whether they will have enough for home consumption. In this emergency Western Europe will be compelled to look to America alone for its supply of wheat, and it is probable that America wheat will be imported especially by Great Britain, in larger quantities than ever before. This will almost drain America of its surplus stock and will afford a more generous market than American wheat growers have known for years.

We do not advertise a great FALL but we do guarantee to give the best goods for the least money of any house in the city.

In 1816 it took just one bushel of corn to buy one pound of nails; now a bushel of corn will buy ten pounds of nails. It then required 34 bushels of barley to buy a yard of broadcloth, now the same quantity of barley will pay for 20 yards of broadcloth. It then required the price of one bushel of wheat to pay for one yard of calico, now one bushel of wheat will buy 20 yards of calico.

In a museum in Belgium are the bodies of six members of one family. They were all buried in a tan yard, and when they were exhumed years afterward the skin, flesh and even the bones were well preserved, so thoroughly tanned were all the parts. These specimens are in a better state of preservation than are the Egyptian mummies.

Democrats are in the majority in the Montana constitutional convention, and they are making every effort to secure the new state for the democracy. There will be no danger of this, however, if the proposed section, providing that no citizen shall be entitled to vote who can neither read nor write, is adopted.

BE FOLLOWED SUIT.  
My wife has been under physician care for two years, for what they called "liver complaint," she would get some relief while taking prescription, but would soon fall back into the same distress. I have tried a bottle of Dr. J. C. Remedy, and it did her immediate good, and when three bottles had been taken she regained her old accustomed health and spirits and is now as well as ever. See for the benefit she derived. I used it for rheumatism with the result that I am now entirely free from the disease with which I had suffered for over a year.

FURNITURE.  
Wm. McKim  
Has purchased the Main Street furniture store, and is prepared to furnish to all who desire both new and second hand furniture, at prices to suit all classes, and will also keep for sale many kinds of  
Household Goods  
Too numerous to specify. Second hand furniture will also be purchased by him, or taken in exchange.  
Vancouver May 12, 1884  
No more sending Watches and Clocks away to be repaired.

J. P. LOWE  
Watchmaker and Jeweler,  
Keeps a full assortment of all goods in their line, which are sold at low prices as they can be had in Portland.  
Repairing a specialty.  
Opposite the First National Bank.
